

Safe and Funny Winter Holiday

On 2 February 2015 children from Silesian voivodeship are starting their two-week winter holiday. It is important to remind them about safe ways of playing with snow and ice-skating.

Some advices of how to behave carefully and keep your safety:

Keep far from a road when sledging or skiing.

Don't attach your sledge to a car.

Ice-skate only on special ice-rinks.

Don't throw hard snowballs at your friends.

Don't make ice slides on the pavements, they are for people to walk.

Wear suitable clothes for cold weather.

Don't spend too much time in front of a TV or a computer, spend time actively outside.

Have a nice, funny and snowy winter holiday! Relax, have fun playing with snow, get new energy for the second semester of the school year and always remember about safety!
